Skills

- **Languages**: Python, SQL, C++, Java
- **Frameworks/Libraries**: HTML and CSS, NumPy, Pandas, Matplotlib, Seaborn, SciPy, Scikit-Learn
- **Tools/Platforms**: Git/GitHub, Jupyter Notebook, VS Code, Microsoft Excel, Power BI, Tableau
- **Soft Skills**: Problem-Solving, Team Collaboration, Interpersonal Skills, Consistency

Projects

- **Financial Risk & Bankruptcy Prediction Model** | Oct' 25 – Nov' 25
  - Analyzed 90+ financial features to build a binary bankruptcy prediction model from real-world financial ratio data.
  - Applied classification and clustering techniques to identify 2 distinct financial risk groups among companies.
  - Achieved high predictive accuracy (≈ 90%+) and evaluated the model using accuracy score, confusion matrix, feature importance, and PCA-based visualizations.

  Tech Used: Python, Scikit-learn, Pandas , VS Code
- **Retail Sales Dashboard** | Jan' 25 – Feb' 25
  - Developed an Excel E-Commerce Dashboard using Pivot Tables and Slicers to analyze 50,000+ retail data.
  - Performed end-to-end data cleaning, transformation, and modeling to create a user-friendly, insights-driven reporting system.
  - Enhanced decision-making speed by **40%** featuring slicers and dynamic KPIs.

  Tech Used: Excel ,EDA
- **Student Academic & Digital Behavior Analysis** | Dec' 24 – Jan' 25
  - Analyzed large-scale student feedback data to examine the relationship between academic performance and digital engagement, focusing on online learning behavior and screen-time patterns.
  - Designed and developed interactive dashboards to highlight online learning tool usage, social media engagement, and academic trends across departments, years of study, and demographics
  - Applied data analysis and visualization techniques to transform raw survey data into actionable insights that support data driven understanding of modern student learning behavior.

  Tech Used: Power BI, Data Modeling, Power Query.

Training

- **Mastering Data Structures and Algorithms, LPU** | Jun' 25 – Jul' 25
  - Completed a structured skill-development program focused on advanced Data Structures using **C++**.
  - Strengthened core concepts through systematic practice and real-world problem-solving exercises.
  - Gained proficiency in Arrays, Linked Lists, Stacks, Queues, Trees, Graphs, Sorting and Searching.

Certificates

- Microsoft Power BI by Infosys springboard | Jul' 25
- Cloud Computing by NPTEL | Mar' 25
- Responsive Web Design by Free code camp | Aug' 24

Extra-Curricular Activities

- **Cyber Security V/S Ethical Hacking** | Feb' 24 – Mar' 24

  Participated in a hands-on workshop on "Cyber Security vs Ethical Hacking" conducted by Secuneus Technologies at Lovely Professional University.

Education

- **Lovely Professional University** — Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 7.13*** — Aug' 23 - Present
- **Aditya Junior College** — Mandapeta, Andhra Pradesh
  Intermediate; ***Percentage: 85.5*** — Apr' 22 – Mar' 23
- **Bhashyam Public School** — Ramachandrapuram, Andhra Pradesh
  Matriculation; ***Percentage: 92*** — Apr' 20 – Mar' 21
